**Financial Systems:** Bonds Management, Banking Systems, Financial Services Integration

**Tools & Platforms:** Visual Studio, VS Code, JIRA, Trello, Slack, Cron Jobs

**Web Technologies:** WordPress, WooCommerce, Elementor, Responsive Design, SEO

## WORK EXPERIENCE

### .NET Developer

*Mphoti Consulting (Placed at e4 Company) | 2025 - Present*

- Develop and maintain enterprise-level banking applications using .NET Core, C#, and Azure for major financial institutions including FNB, ABSA, Investec, Nedbank, and Bank of Namibia
- Design, implement, and optimize SQL Server databases, including complex stored procedures, queries, and performance tuning for high-volume financial transactions
- Maintain and enhance bonds management systems, ensuring compliance with financial regulations and banking standards
- Develop and consume RESTful APIs to integrate with core banking systems and third-party financial services
- Implement new features and functionality based on business requirements, following Agile development methodologies
- Troubleshoot and resolve complex production issues, performing root cause analysis and implementing permanent fixes
- Collaborate with cross-functional teams including business analysts, QA engineers, and stakeholders to deliver high-quality solutions
- Deploy applications to Azure cloud infrastructure and manage CI/CD pipelines for automated deployments
- Write and maintain technical documentation for system architecture, APIs, and deployment procedures

### Web Application Developer

*Esquire Technologies | 2024 - 2025*

- Developed and maintained eCommerce websites for clients using ASP.NET Core, C#, and ReactJS
- Managed the Esquire main system backend, ensuring smooth operation and reliability for high-traffic retail operations
- Developed and maintained RESTful APIs using ASP.NET Core Web API to support internal and client-facing applications
- Provided data feed maintenance for clients to ensure product information accuracy across multiple platforms
- Created data feeds for clients and assisted them in integrating feeds into their websites
- Designed and implemented HTML email templates for promotional campaigns and marketing initiatives
- Provided end-user support to clients, resolving technical issues promptly and maintaining high customer satisfaction
- Collaborated with sales and marketing teams to implement new website features and promotional campaigns
- Performed cross-browser and mobile responsiveness testing to ensure consistent user experience
- Optimized website performance, loading speed, and implemented SEO-friendly structures

### **Junior Software Developer / IT Specialist**

*Initium Venture Solutions | March 2023 - June 2024*

- Designed, developed, and maintained web and desktop applications using C# and ReactJS
- Managed SQL Server databases, ensuring data accuracy, backups, and secure access controls
- Provided technical support for internal users and clients, resolving hardware, software, and network issues
- Integrated third-party APIs and tools into existing systems to enhance functionality
- Performed testing, debugging, and deployment of new features and system updates
- Implemented security measures including antivirus management, firewall policies, and system monitoring
- Documented software processes, installation procedures, and troubleshooting guides
- Collaborated with cross-functional teams to gather requirements and deliver tailored IT solutions
- Set up and configured workstations, servers, and network devices for company operations

### **Software Developer Intern**

*Initium Venture Solutions | 2023*

- Contributed to the development of internal software tools by assisting in feature implementation and UI improvements
- Helped refactor and optimize existing codebases to improve performance and maintainability
- Participated in code reviews and Agile team sprints, collaborating closely with senior developers
- Assisted in software deployment and environment setup for staging and production releases
- Created prototype interfaces and demos for client presentations and internal approval
- Performance and dedication during internship led to being offered a permanent contract as Junior Software Developer

### **Software Developer Intern**

*Investhood IT (Pty) | 2021 - 2022*

- Assisted in the development of web and desktop applications using C# and ReactJS
- Supported the team in designing and maintaining SQL Server databases, including data entry, backups, and queries
- Participated in testing and debugging to ensure application stability and performance
- Contributed to UI enhancements and implementation of user-friendly features
- Documented development processes and feature updates for internal reference
- Collaborated with senior developers to implement new modules and fix technical issues

## **EDUCATION**

---

## National Diploma in Information Technology (Software Development)

*Tshwane University of Technology | 2016 - 2021*

## National Senior Certificate (NSC)

*Lekete Secondary School | 2011 - 2015*

### CERTIFICATIONS

---

- Certificate in Full Stack Development - FNB App Academy
- National Certificate: Information Technology - Systems Development - MICT Seta
- Certificate of Attendance: Soft Skills Workplace Etiquette Training
- Certificate of Competence: 3D Printing Program

### NOTABLE PROJECTS

---
